GUMSTIX INC

Dear Valued Customer,

We are writing to inform you that the Gumstix Overo Series will be entering a Last Time Buy (LTB) period, effective immediately. The LTB window will remain open for three months, with all orders to be shipped by the end of the 2025 calendar year. Please ensure that orders are placed by Wednesday, 13th August 2025. After which, all assemblies will be discontinued.

This decision follows the recent obsolescence of the RAM chip used across all Overo assemblies. While we currently have a limited inventory available to support customer orders, please be advised that once this stock is depleted, we will rely on our strategic sourcing team to secure additional components. This may result in extended lead times or pricing adjustments, depending on availability. Gumstix reserves the right to allocate available quantities among customers based on demand and material availability.

We encourage customers to assess their future needs and place orders as early as possible within the LTB period to ensure availability and secure current pricing. Current lead times are approximately 16 weeks across all active assemblies. For order quantities of less than 300 units, we ask that you contact an authorized distributor such as Mouser Electronics Inc to support. All orders are Non-Cancelable, Non-Returnable (NCNR) and pricing is subject to change based on material availability.

We want to sincerely thank you for your loyalty and enthusiasm for the Overo Series over the years. Your support has been integral to its incredible success.

Should you have any questions or require assistance with your order planning, please do not hesitate to reach out to your account representative or contact us directly at sales@gumstix.com.

Sincerely,

Chris Roe
Senior Business Development Manager
